

## *Truck, Firefighting, Aircraft Crash and Structure Fire, A/S32P-19A (P-19A) Rebuild Program*

### *DESCRIPTION*

The P19-A is mobile, flexible, and capable of operating in extreme weather conditions as well as in a Nuclear, Biological and Chemical (NBC) environment. Rebuilding will greatly increase the system's reliability. The Truck, Firefighting, Aircraft Crash and Structure Fire, A/S32P-19A (P19-A) Rebuild program is designated an ACAT IV (M) Minor Upgrade program. It is a critical asset in airfield operation providing Crash, Fire and Rescue (CFR) services. The P19-A series vehicle exceeded their planned service life of twelve years in 1997, and commenced a three-year program to rebuild the existing fleet.

PROCUREMENT PROFILE:	FY00	FY01
<i>Quantity:</i>	<i>33</i>	<i>34</i>

### *OPERATIONAL IMPACT*

The P19A provides the Marine Air Ground Task Force a fire-fighting truck to accomplish its expeditionary airfield operations of rescue protection for Aviation Combat Element aircraft, structural firefighting protection for tactical airfield-related facilities and miscellaneous support vehicles.

### *PROGRAM STATUS*

Milestone I/III occurred in FY96. Production began in FY98. IOC occurred in FY99 with Full Operational Capability in FY01.

### *DEVELOPER/MANUFACTURER*

Crash Rescue Equipment Services, Inc. Dallas, TX
